

Frame Dimensions™

"Since using "Frame Dimensions", it has been great to print a frame dimension sheet while writing an estimate, pre-empting the body tech's need to come to the office requesting it."

Tom Visser, Manager, Visser's Collision, Tinley Park, IL

Instant Access to Frame Dimensions

AudaExplroe Frame Dimensions gives collision repair professionals instant access to a vehicle's exact frame dimension map. By simply typing in the VIN number, a technician can view multiple angles of the vehicle's under-hood, under-body and upper-body measurements, as well as print out exact vehicle frame diagrams—all while writing an estimate using the AudaExplore platform. This fully automated frame dimensions feature is an add-on module that seamlessly integrates with our estimating suite.

Faster, More Efficient Repair Process

AudaExplore Frame Dimensions saves collision repair professionals time as well as the additional expense associated with using frame books. Instead of looking up the vehicle frame map manually, and potentially writing down the measurements incorrectly, repair professionals are assured of getting the right vehicle frame map the first time and every time with Frame Dimensions—making it possible for them to create fast and accurate estimates.

AudaExplore Frame Dimensions

Features and Benefits
